【Para. 1】

Bumble was supposed to be different. When the dating app **launched** in 2014, it offered women a simple **proposition**: if you matched with a man, you had to make the first move. The rule was meant to make online dating safer and less **intimidating**, while giving women **control** over who got to speak first.

- **swipe n.** /swaɪp/ to move your finger over the screen of a mobile phone or tablet in order to move onto the next page, choose something, etc. 滑动（屏幕操作）

Swipe left to see more search results. 左滑查看更多搜索结果。
[swipe 还可以用来指刷卡时“刷”的动作]

- **fatigue n.** /fə'ti:g/ a feeling of extreme tiredness, usually resulting from hard work or exercise 疲劳，劳累 【考研大纲词汇】

Depression is also a major cause of fatigue. 抑郁症也是导致疲劳的一个主要原因。

- **launch v.** /lɔ:ntʃ/ to begin something such as a plan, or introduce something new such as a product 推出，发起，启动 【考研大纲词汇】

The company plans to launch a new feature next month.
该公司计划下个月推出一项新功能。

- **proposition n.** /ˌprɒpə'zɪʃən/ an offer or suggestion, usually in business （通常指商业上的）提议，建议 【考研大纲词汇】

He wrote to me with a very interesting business proposition. 他给我写信，提出了一个非常有趣的商业提议。

- **intimidating adj.** /ɪn'tɪmɪdeɪɪŋ/ making you feel

frightened or nervous 令人紧张的，吓人的

She can be very intimidating when she's angry. 她发怒的时候会非常吓人。

- **control n.** /kən'trəʊl/ the ability to make someone or something do what you want 控制（权）；支配（权）【考研英语大纲词汇】

She wants to have more control over her daily schedule. 她希望对日常安排有更多控制。[under control 得到控制]

Bumble 本该与众不同。这款约会应用在 2014 年上线时，向女性提供了一个简单的设定：如果你与一位男性配对成功，你必须先主动发起对话。这一规则旨在让在线约会更安全、减少局促感，同时让女性掌握谁先发言的主动权。

【Para. 2】

This week, Bumble **abandoned** it. The change follows the introduction of Opening Moves, which had already **softened** the original rule, and comes as Bumble prepares to abandon another **defining** feature: the swipe. The company said it was responding to changing user behaviour and wanted to **encourage** more **meaningful** connections. But there is another way of **reading** the changes.

- **abandon v.** /ə'bændən/ to leave a place, thing, or person permanently 放弃，抛弃【考研大纲词汇】

He abandoned his car in the snow. 他把汽车丢弃在雪地里。

- **soften v.** /'sɒfən/ to make something less severe, strong, or unpleasant (使)减轻，(使)缓和

The new policy aims to soften the impact of the changes.

新政策旨在减轻这些变化带来的影响。[反义: **harden** (使)变严厉，(使)变坚强，(使)变冷酷]

- **defining adj.** /dɪ'faɪnɪŋ/ very important because it shows the essential character of something 决定性的，标志性的

His defining quality is his honesty. 他的标志性品质是诚实。

- **encourage v.** /ɪn'kʌrɪdʒ/ to make someone more likely to do something, or to make something more likely to happen 鼓励，促进【考研大纲词汇】

Good weather encourages people to go outside. 好天气会促使人们到户外去。

- **read v.** /'ri:d/ to understand and give a particular meaning to written information, a statement, a situation, etc. 理解；读作；(用于订正讹误) 改作，换用

If I've read the situation correctly, we should have some agreement on the contract by the end of the week. 如果我对形势的看法正确的话，周末前我们应该可以就合同达成某种一致。

本周，Bumble 放弃了这一规则。这一变化紧随“开场白”(Opening Moves) 功能上线，该功能已在一定程度上放宽了原有规则。而与此同时，Bumble 还准备舍弃另一个标志性功能：滑动匹配。公司表示，此举意在适应用户行为的转变，并希望促成更有意义的连接。但对此也可以有另一种解读。

【Para. 3】

Bumble was created to fix what many saw as Tinder's **chaotic** and aggressive **hookup** culture by shifting the power **dynamic** entirely to women. Now it is **dismantling** those features. And it is not alone. Across the dating app industry, the swipe-and-match model that **transformed** how people met is being quietly reworked while companies race to put artificial **intelligence** at the centre of whatever comes next.

- **chaotic adj.** /keɪ'ɒtɪk/ in a state of complete confusion and disorder 混乱的，无秩序的

The traffic in the city is completely chaotic during rush hour. 这座城市在高峰时段的交通完全是一片混乱。 [orderly adj. 整齐的；井然有序的]

- **hookup n.** /'hʊkʌp/ a sexual relationship or encounter, often casual and without commitment (尤指非正式的) 性关系, 约炮

Many dating apps are known for facilitating casual hookups rather than long-term relationships. 许多约会应用以促进随意的约炮而非长期关系而闻名。

- **dynamic n.** /daɪ'næmɪk/ the way in which people or things behave and interact with each other 动态, 互动关系
【考研大纲词汇】

The dynamic between the two teammates changed after they had a serious conversation. 两位队友在认真交谈之后, 他们之间的互动关系发生了变化。

- **dismantle v.** /dɪs'mæntəl/ to take apart or destroy something, especially a system or set of rules 拆除, 废除 (尤指制度或规则)

The government plans to dismantle the old healthcare system and build a new one. 政府计划废除旧的医疗体系并建立一个新的。

- **transform v.** /træns'fɔ:m/ to change completely the appearance, character, or function of something 彻底改变, 改造 【考研大纲词汇】

The new manager transformed the company's working culture within months. 新经理在几个月内彻底改变了公司的工作文化。 [transformer adj. 变压器]

- **intelligence n.** /ɪn'telɪdʒəns/ the ability to learn, understand, and think in a logical way about things 智力, 智慧 【考研大纲词汇】

These magnificent ancient buildings demonstrate the great intelligence of the labouring people. 这些壮丽的古代建筑显示了劳动人民的高度智慧。 [intelligent adj. 有才智的; 聪颖的, 理解力强的]

Bumble 的创立初衷, 是为了修正许多人眼中 Tinder 那种混乱且充满攻击性的约炮文化, 将权力动态完全转向女性。而现在, 它正在逐步废除这些特色功能。而且, Bumble 并非孤例。在整个约会应用行业, 曾经彻底改变人们相识方式的“滑动与匹配”模式, 正在悄然被重构, 同时各大公司竞相将人工智能置于下一阶段发展的核心位置。

【Para. 4】

“Bumble is in **salvage** mode,” said Luke Brunning, a **philosopher** who studies the ethics of technology and relationships. “They’ve already reorganised, **restructured** and cut jobs in response to declining revenue. This risky, **standout pivot** suggests they’re wondering how, despite all that, to keep going.”

- **salvage n.** /'sælvɪdʒ/ the act of saving something from a dangerous or difficult situation （在危险或困境中的）挽救，抢救

The company's latest project was a salvage attempt to regain customer trust. 该公司的最新项目是一次挽救行动，旨在重新赢得客户信任。

- **philosopher n.** /fɪ'lɒsəfər/ a person who studies or writes about philosophy 哲学家

She is a philosopher who specializes in ethics. 她是一位专攻伦理学的哲学家。

- **restructure v.** /,rɪ:'strʌktʃər/ to organize a company, business, or system in a new way to make it work more effectively 重组，调整结构

The company decided to restructure its management team. 公司决定重组其管理团队。

- **standout adj.** /'stændaʊt/ noticeably better or more impressive than others 突出的, 引人注目的

Her performance was the standout moment of the concert. 她的表演是音乐会最出彩的时刻。

- **pivot n.** /'pivət/ a movement in which a player turns quickly while keeping one foot on the ground 转身; 旋转(运动)

The basketball player's pivot was flawless. 这位篮球运动员的转身动作完美无缺。

“Bumble 正处于自救模式,” 研究技术与人际关系伦理的哲学家卢克·布鲁宁表示。“为了应对营收下滑, 他们已经进行了重组、结构调整和裁员。这次高风险、颇为大胆的转型表明, 他们在思考——尽管做了这么多努力——如何才能继续走下去。”

【Para. 5】

Bumble's paying users fell **sharply** over the past year and its share price has been under **sustained** pressure. The company cut about 30% of its **workforce** this year. “It's going to be **fascinating** to see whether they can weather it,” Brunning said. “But they're not alone: a lot of the major

players are also in salvage mode, trying to figure out how to position themselves in a market that is increasingly fed up with them.”

- **sharply adv.** /'ʃɑ:pli/ suddenly and by a large amount 急剧地，大幅地

Prices dropped sharply after the announcement. 公告发布后，价格急剧下跌。

- **sustained adj.** /sə'steɪnd/ continuing for a long time 持续的，持久的

The team made a sustained effort to complete the project on time. 团队为按时完成项目做出了持续的努力。

- **workforce n.** /'wɜ:kfɔ:s/ the group of people who work in a company, industry, or country 劳动力，全体员工

The company has reduced its workforce by 20% this year. 该公司今年已将员工人数削减了 20%。 [workload n. 工作量，工作负荷]

- **fascinating adj.** /'fæsəneɪtɪŋ/ extremely interesting 极有趣的，迷人的

The book offers a fascinating glimpse of the lives of the rich and famous. 这本书使我们得以一窥富豪名流的生活，十分有趣。

过去一年，Bumble 的付费用户大幅下降，其股价也持续承压。该公司今年裁减了约 30% 的员工。“它们能否挺过这一关，这很耐人寻味，”布鲁宁说。“但它们并非个例：许多主要玩家也处于自救模式，试图在一个越来越厌倦它们的市场中重新定位自己。”

【Para. 6】

Brunning's research shows dating apps are now often used **grudgingly**, because people feel they are necessary, rather than with the excitement that accompanied their rise.

- **grudgingly adv.** /'grʌdʒɪŋli/ in a way that shows you are unwilling to do something 勉强地，不情愿地

He grudgingly accepted that he would retire after the general election. 他勉强接受了他将在大选后退休的事实。

布鲁宁的研究表明，如今人们使用约会应用往往是出于无奈，因为觉得不得不使用，而非像它们兴起时那样满怀期待。

【Para. 7】

The online dating industry – estimated to be worth almost £10 bn globally – is **keenly** aware of this. Its solution? To go full AI. Grindr – seen

as a **testbed** for the wider industry – is currently **transitioning** into an “AI-first” platform. Tinder is testing Chemistry, an AI-powered system **intended** to **reduce** “swipe fatigue”. Bumble has been developing an AI matchmaking assistant called Bee.

- **keenly adv.** /'ki:nli/ in a way that shows you are very aware or interested in something 强烈地，敏锐地

She is keenly aware of the risks involved. 她敏锐地意识到所涉及的风险。

- **transition v.** /træn'ziʃən/ to change from one state or condition to another 转变，过渡【考研大纲词汇】

Somehow, I offended him, which wasn't what I'd intended. 我不知怎么得罪了他，但这不是我的初衷。

- **reduce v.** /rɪ'djuːs/ to make something smaller in size, amount, degree, etc. 减少, 降低 【考研大纲词汇】

We bought a TV that was reduced from £500 to £350 in the sales. 我们在大减价时, 买了一台从 500 英镑减至 350 英镑的电视。 [increase v. 增加, 提高]

在线约会行业——全球估值接近 100 亿英镑——对此心知肚明。它的解决方案是什么？全面拥抱 AI。被视为整个行业试验田的 Grindr, 目前正转型为一个 “AI 优先” 平台。Tinder 正在测试 Chemistry, 一个旨在减少 “滑动疲劳” 的 AI 驱动系统。Bumble 也一直在开发一个名为 Bee 的 AI 匹配助手。

【Para. 8】

Other **start-ups** are **dispensing with** swiping altogether. The London-based Fate describes itself as an “agentic AI dating app”: instead of **browsing profiles**, users are interviewed by an AI about what they want from relationships to find **similarities** with **potential** partners.

- **start-up n.** /'stɑːt ʌp/ a new business or company that is just beginning 初创公司

Many tech start-ups fail within their first two years. 许多科技初创公司在头两年内就倒闭了。

- **similarity** *n.* /ˌsɪmɪ'lærəti/ the state of being similar or like something else 相似性

- **potential** *adj.* /pə'tenʃəl/ possible or likely, but not yet

achieved or developed 潜在的，可能的 【考研大纲词汇】

The company is looking for potential investors. 公司正在寻找潜在的投资者。

其他初创公司则完全摒弃了滑动功能。总部位于伦敦的 Fate 自称是一款“智能体 AI 约会应用”：用户无需浏览个人资料，而是由 AI 对用户进行访谈，了解他们在感情中的需求，从而找出与潜在伴侣之间的相似之处。

【Para. 9】

So why aren't we talking about being on the brink of a brave new world of dating apps, where AI will successfully sift the candidates to find our one true love? Why instead, is the debate about whether the apps will even survive?

- **brink n.** /brɪŋk/ the point or edge where a new or different situation is about to begin 边缘，临界点

The country is on the brink of a major economic reform.

There were many excellent candidates for the scholarship.

- **debate n.** /dɪ'beɪt/ a discussion or argument about a subject, often with different opinions 讨论, 辩论 【考研大纲词汇】

The debate over climate change continues to intensify.

关于气候变化的争论仍在加剧。

那么, 为什么我们并没有在谈论一个约会应用即将迎来的“美丽新世界”——在那里 AI 将成功筛选候选人, 帮我们找到真爱? 为什么反而在争论这些应用是否还能存活下去?

【Para. 10】

Adam Peacock, a researcher of technology and **intimacy**, thinks the issue is that the industry is **misreading** what people are **objecting** to. “There’s a kind of **emerging** cultural **backlash** against allowing AI into our **intimate** lives as well as **additional** concern that someone you’re talking to on these apps is **actually filtering** the whole conversation through an AI **concierge**,” he said.

- **intimacy** n. /'ɪntɪməsi/ a close personal relationship with someone, involving emotional or physical closeness 亲密, 亲近

Building intimacy takes time and trust. 建立亲密关系需要时间和信任。

- **misread** v. /,mɪs'ri:d/ to understand something incorrectly 误解, 误读

Staff perks include a concierge, an ironing service, discounted concert tickets, and an on-site creche. 员工福利包括礼宾服务、熨烫服务、折扣音乐会门票和现场托儿所。

技术与亲密关系研究员亚当·皮科克认为，问题在于行业误解了人们真正反对的是什么。“目前正出现一种文化上的反弹，抵制 AI 介入我们的亲密生活；同时，人们也越来越担心，在这些应用上与你聊天的人，其实是在通过一个 AI 管家过滤整段对话，”他说。

【Para. 11】

Peacock said gen Z in **particular** had concerns that dating apps were not even being designed to make good connections between users but were, instead, **opaquely tweaked** to **monetise** the time users spent on the sites. That, in a **cynical twist**, the apps were **deliberately profiting** from keeping people lonely. “The dating industry has turned intimacy into an **enormous** source of data,” said Peacock. “Dating apps can know where people live, what they look like, who they are attracted to, what they say to potential partners and, increasingly, how they behave.”

- **particular adj.** /pəˈtɪkjələr/ relating to one person or thing and not others 特定的，特别的 【考研大纲词汇】

She wanted a particular type of cactus. 她要某一特定品种的仙人掌。

The company profits from selling user data. 该公司通过出售用户数据获利。

- **enormous adj.** /ɪˈnɔːməs/ extremely large 巨大的 【考研大纲词汇】

He earns an enormous salary. 他工资极高。

皮科克表示，Z 世代尤其担心，约会应用的设计初衷甚至不是为了促成用户之间的良好连接，而是对算法进行不透明的调整，以此将用户的使用时长变现。更讽刺的是，这些应用故意从让人们保持孤独中获利。“约会行业已经把亲密关系变成了巨大的数据来源，”皮科克说。“约会应用可以知道人们住在哪里、长什么样、被谁吸引、对潜在伴侣说了什么，而且越来越多地，它们还能知道人们的行为方式。”

【Para. 12】

But the first generation of dating apps – the **era** of the profile, the swipe, the match and the message – may be reaching its end. Peacock thinks the apps may **evolve** into something broader: “more of a social media, **lifestyle** product than a dedicated dating app”. But the question is whether any **iteration** of dating app will make dating better, or whether the extra **layers** of AI will simply **function** as a temporary **facade** on an **exhausted** model.

- **era n.** /'ɪərə/ a period of time in history that is special for a particular reason 时代，纪元

The digital era has changed everything. 数字时代改变了一切。

- **evolve v.** /ɪˈvɒlv/ to develop gradually 进化, 演变, 发展

- **iteration n.** /ˌɪtərˈeɪʃən/ a new version of something, or a repetition of a process 迭代, 新版本

There is a layer of dust on the shelf. 架子上有一层灰尘。

- **function v.** /ˈfʌŋkʃən/ to work or operate 运行, 起作用 【考研大纲词汇】

The function of the veins is to carry blood to the heart. 静脉的功能是将血液输送回心脏。

- **façade n.** /fə'sɑ:d/ a false appearance that hides the truth
假象，外表

Behind his friendly façade, he was lonely. 在他友善的外表下，他很孤独。

- **exhausted adj.** /ɪg'zɔ:stɪd/ completely used up or worn out
耗尽的，精疲力尽的

The old system is exhausted and needs replacement. 旧的系统已经耗尽了，需要更换。

但第一代约会应用——那个由个人资料、滑动、配对和消息组成的时代——可能正在走向终结。皮科克认为，这些应用可能会演变成更广泛的形态：“更像是一个社交媒体、生活方式类产品，而不仅仅是专门的约会应用。”但问题在于，无论约会应用如何迭代，它是否真的能让约会变得更好，还是说，新增的 AI 层不过是给一个已经过时的模式暂时披上光鲜的外衣。

➤ 写作积累

1. (para.5) “But they’ re not alone: a lot of the major players are also in salvage mode, trying to figure out how to position themselves in a market that is increasingly **fed up with** them.” “但它们并非个例：许多主要玩家也处于自救模式，试图在一个越来越**厌倦**它们的市场中重新定位自己。”

fed up with something/doing something 表示 “you are bored, annoyed, or disappointed because you have experienced it for too long” 中文常常翻译为 “**受够了；厌倦了**”，例如：I'm fed up with cleaning up after you all the time. 我受够了总在你后面收拾。

另外注意**形近**的短语 **feed** someone/something **up**，是**养壮，养肥**的意思。You've lost a lot of weight - you need feeding up a bit. 你瘦了很多，需要吃胖一点。

其他与 “受够了/厌倦” 有关的实用表达还有：

- ♦ **have had enough** *phrase* to want something to stop because it is annoying you 受够了
I've had enough - I'm going home. 我受够了——我要回家了。
- ♦ **have had it (up to here) with** *idiom* to have suffered because of someone or something and to be no longer able to bear him, her, or it 受够了
I've had it up to here with you - get out! 我已经受够你了——滚出去!
- ♦ **tire of something/someone** *phrasal verb* to become bored with someone or something, or to stop enjoying an activity 对...感到厌倦（或厌烦）
He never tires of playing games on his computer. 电脑游戏他百玩不厌。

2. (para.9) So why aren' t we talking about being on the brink of a **brave new world** of dating apps, where AI will successfully sift the candidates to find our one true love?.
那么，为什么我们并没有在谈论一个约会应用即将迎来的“**美丽新世界**”——在那里 AI 将成功筛选候选人，帮我们找到真爱？

brave new world 来自 1932 年，英国作家阿道司·赫胥黎 (Aldous Huxley) 的著名小说著名反乌托邦小说 **《美丽新世界》** (*Brave New World*) 的书名。

小说描绘了一个通过基因工程、心理操控和药物控制来维持“稳定”的未来社会。表面上，这个社会科技发达、人人“幸福”，但实际上，人类被预先划分等级，失去了自由意志、个性和真实的情感。这使得这个短语在使用中具有强烈的**反讽**意味，总是带有**怀疑或批判**的色彩

其他与文学典故有关的实用表达还有：

- ◆ **Jekyll and Hyde**

出自苏格兰作家罗伯特·路易斯·史蒂文森 (Robert Louis Stevenson) 1886 年的小说 **《化身博士》** (The Strange Case of Dr Jekyll and Mr Hyde)

医生杰基尔 (Dr Jekyll) 发明了一种药水，喝下后会变身成邪恶的海德先生 (Mr Hyde)。他白天是受人尊敬的绅士，夜晚却犯下种种罪行。最终，海德越来越强大，杰基尔逐渐无法控制自己的变身。

指一个人具有**善恶交替、判若两人的双重人格**——“Jekyll”代表善良、体面的一面，“Hyde”代表邪恶、狂暴的一面。

He's a real Jekyll and Hyde character – charming at work, but completely different at home. 他真是个“化身博士”式的人物——工作时温文尔雅，回到家判若两人。

◆ **Catch-22**

出自美国作家约瑟夫·海勒（Joseph Heller）1961 年的反战小说 **《第二十二条军规》（Catch-22）**

小说中的“第二十二条军规”规定：只有疯子才能免于执行危险的飞行任务，但你必须主动申请才能被认定为疯子——而主动申请恰恰证明你神志清醒，因此你永远无法满足条件。

指一种**自相矛盾、无法逃脱的荒谬困境**——你越是想摆脱它，就越被它牢牢困住。

It's a real Catch-22: I need work experience to get a job, but I can't get experience without a job. 这真是个两难困境：我需要工作经验才能找到工作，但没有工作就积累不了经验。

◆ **Peter Pan**

出自苏格兰作家 J.M. 巴里（J.M. Barrie）1904 年的戏剧 **《彼得·潘》（Peter Pan）**，后于 1911 年改编为小说 **《彼得·潘与温迪》（Peter Pan and Wendy）**。

文中彼得潘是一个永远不会长大的男孩，生活在“梦幻岛”

(Neverland)，带领一群“迷失男孩”(Lost Boys)与海盗胡克船长作战。他天真、冒险、自由，但也极度自我中心、逃避一切成人世界的责任。

在当代文化中，“Peter Pan”已经成为一个文化原型，用来指代那些**拒绝长大、拒绝承担成年人责任、始终停留在少年心态的人**。这一概念在心理学中进一步衍生出“彼得潘综合症”

(Peter Pan Syndrome)——形容一些成年人（尤其是男性）在情感和社会角色上始终无法“成熟”。

Stop being such a Peter Pan and finally commit to something real. 别再像个彼得·潘一样了，对真正重要的事情做出承诺吧。
